

# Pyramid Z

## Clear textured extruded PMMA

### Advantages

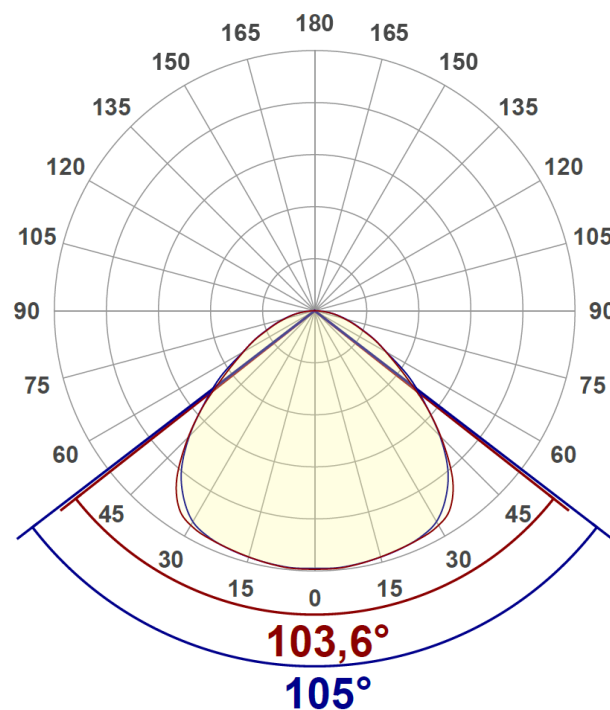

- Solid sheet
- Large size
- Transparent
- Optimized for edge-lit ceiling lights
- UV Resistance
- Excellent anti-glare effect

Plexiglas® Pyramid Z from German Röhm GmbH is an excellent choice for lamp covers, surface- and designlight. The Pyramid Z is color-neutral. This property allows the material to be dyed in almost any shade of white or any other color and modified in many different ways.

Different degrees of light transmission and scattering levels enable customized lighting applications, signages and continued linear luminaires. It prevents differences in brightness and is extremely versatile and gives a pleasant light.

### Product data

Material	PMMA
Thickness	3mm
Transmission D <sub>65</sub>	92%
Standard dimensions	3050 x 1650mm
Build-up	Sheet

Measured light distribution curve, Ingemann Extruded

■ C0/C180

■ C90/C270
